Happy New Year! **2013 is going to be an amazing year... do you agree?**

No matter, where you are, you have the power to **SHIFT** what you are experiencing. Here's a quote that really resonated with me. It goes, *"Although no one can go back and make a brand new start, ANYONE can START from NOW and make a BRAND NEW ENDING"* ~Carl Bard

Each January we have the ability to be reborn symbolically... it's a time of pure inspiration, motivation, of exciting possibilities and I encourage you to seize this time to create what you want for your 2013. What is it that you want to accomplish? What would really please you?

I am so grateful to have learned that I am in control of my world. That through conscious thought and reprogramming my subconscious, I can achieve things bigger than I could have imagined. Not just physical or superficial things, but virtues such as inner peace, joy, spirituality, wellness, feeling complete, clarity, acceptance, knowing my purpose, as well. These, I found during this journey are the true treasures. My transformation began 5 years ago and each day I am dedicated to being a better version of myself than the day before.

If I could give one gift, it would be of empowerment. My wish is that everyone can experience being the best version of themselves. This morning I had an inspired idea to create an offer to motivate those that want real change in their lives, but don't quite know how to start.

Immediately I received an answer...
